

PART IV. REMARKS AND CONCLUSIONS

4.1 Remarks

- (1) The careful Actions and Personal Interview of the Examiner are appreciated.
- (2) Responsive to the Examiner Requirements:
 - (a) The case now contains only Original Matter in the Specification, Abstract, and Claims;
 - (b) The Current Claims are fully detailed and limited per the disclosed "Summary of Invention" and the "Oat-Soy EXAMPLE" -- and thus Clearly Defined;
 - (c) The Current Claims are Distinctly Limited to features -- which alone and in combination -- are Clearly not Taught or Suggested by the Prior Art of record, in any Combination.

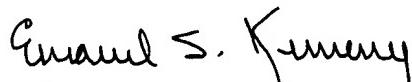

4.2 Conclusion

The current Disclosure and Claims now appear to meet the requirements for Patentability.

Early allowance would be appreciated.

Sincerely,

Applicant
